The state of offairs in Rac Barcilly, where signs of distress are already visible, has induced the Government of India to pass orders relating On LONDON .-to the probability of relief works. -General Roberts left Labore for Simla on the night of the 18th. He received Wali Mahomed and other Afghan Sirdars during his short stay

at Lahoro. KANDAHAR, 19th October. The greatest indignation is expressed here On Paris .with reference to the recent attacks made by a portion of the Indian Press upon General Primrose. It is considered that the fair limits of ON BOMBAY. -Bank, on demand ... 225 criticism have been exceeded and that his motives | On CALCUTTA. -Bank, on demand 225. and actions have misrepresented and misconstrued, while if enquiries had been properly made they would have effectually rebutted the charges made. The incident of the stoppage of Commissariat mules is an instance. General Primrose simply forbade the despatch of one or two mule loads unescorted, and temperarily delayed the party to keep the road clear for the artillery, which were being sent out in compliance with General Robert's argent demand, as the danger of his reconsissance party being forced into action was imminent and a general action might have followed. As to the Bengal division being unable to abtain information regarding the nature of the country towards Mazra, the Assistant - Quartermaster General and many others knew it thoroughly. Neither can General Burrows in the action of the 1st be held liable to censure, as by arrangements be was all in direct heliographic communication with and under the command of General Roberts; therefore, he was unable to act findependently. General Primrose has already been consured by the Commander-in-Chief. Whatever his faults as a General may be all who know him esteem him as an apright and honourable man, who would himself be the last to throw-

a stone at fallen men. It is, therefore, felt that he is not deserving of such ungenerous, not to say unjust, attacks. A native of Kandahar of Persian origin alleged to me a few days ago, in conversation that in the Maiwand disaster he overheard Pathan so-Boys of Jacob's Rifles declare that they would not fight against their brothers the Pathans of Afghanistan. This man states that he accompanied General Barrow's force to Kashk-i-Nakima, and that at the commencement of the fight at Maiwand he saw sepoys discharge their rifles in the air. I have failed to obtain any corroborating evidence, but the man says many in the town can substantiate his statement. The enquiries I have relative to this man to the belief that this character for truthfulness is doubtful. He is, I hear, related to some men now in our employ here, and is of respectable rank. This statement may have some foundation of truth or may prove utterly unfounded. His race are hitterly opposed to the Pathans. They are Shigh Mahomadans. The others are Sunnee. Pending communication from Colonel St. John I withhold
